

New Year 2021 Our Commitment to keep innovating! Our Revit Library is Available Now

Khansaheb Industries is pleased to announce that the complete Revit library for Spiralite Flat Oval and Circular Non-Metallic Ductwork is ready to access. This will enable the Architects, Designers and MEP Consultants to design projects with Flat Oval and Circular ductwork.

Khansaheb's Spiralite HVAC ductwork is innovative and unique, assists with the delivery of clean air, thus improve the IAQ, generating significant energy savings in the operation of the AC, reducing the carbon footprint of the building and optimising the IEQ of the built environment.

Please download the Revit library by clicking visiting our download centre at
